U kojem gradu živiš i koje su neke njegove karakteristike?

GRAD I PLANIRANJE PROSTORA

Grad je skupina naselja, zgrada, kuća, cesta, trgova i parkova. Da bi neko mjesto bilo nazvano gradom određuju zakoni pojedine zemlje, a najčešće ovisi o broju stanovnika koji žive unutar njegovih granica. Tako između ostalog razlikujemo gradove od sela. Naselja u gradovima mogu biti stambena, poslovna, kulturna ili umjetnička kao naš 'Art kvart Benčić'. Da bi grad bio dobro osmišljen potrebno je uskladiti odnos između svih njegovih naselja.
